Re: Hecla Mine  
Compliance Schedule

Dear Mr. Miller:

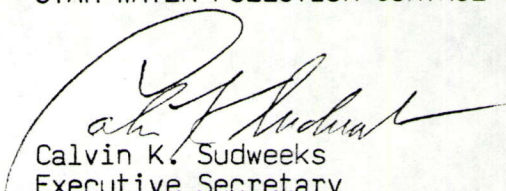

The compliance schedule you submitted on September 25, 1984, for the proposed Hecla mine water radium treatment system has been reviewed. The following schedule is acceptable to us as long as there are no known stream or well water quality violations.

|                          |                   |
|--------------------------|-------------------|
| Selection of design firm | November 9, 1984  |
| Submittal of final plans | December 10, 1984 |
| Start of construction    | April 15, 1985    |
| Operation of system      | May 17, 1985      |

If water quality violations are observed in the stream or well, immediate corrective actions must be taken by the company.

Sincerely,

UTAH WATER POLLUTION CONTROL COMMITTEE

  
Calvin K. Sudweeks  
Executive Secretary
